with  
American Labor

Handmade

The Michelle Parede is reminiscent of wall fans of the early 20th century. The fan head of the Michelle Parede wall mounted fan can be infinitely positioned vertically and horizontally across 180-degree arcs to provide maximum directional airflow. It can be mounted in small, awkward spaces or in front of HVAC ducts to make more efficient the heating, ventilation or air conditioning of any space.

- Constructed of cast aluminum, heavy spun and stamped steel, the Michelle carries a limited lifetime warranty.
- Equipped with hand-balanced metal fan head with metal safety cages.
- Damp location rated if ordered with protective powder or clear coatings.
- Michelle Parede does not oscillate.
